

# June 17, 2016 Tree Keepers Participant List

---

Friday the students will be going out to identify and document health of trees that Mrs. Child helped plant in our neighborhood. Students in my class and Ms. Moore's class have already started this process, and we hope to continue. It's important to keep these baby trees healthy to help form a canopy in Baltimore.

I have shared Google Docs with John, Lauren, Nancy, Patti and Jim that includes a map in order to mark the location and a graphic organizer to document the health. We will document the health and pick up trash to keep the soil healthy and keep the trash from littering the streets or getting washed away into storm drains. Students have also made labels for some trees we have previously identified, and signs reminding people to "Save the Bay" and avoid littering that we can put in the soil near the trees we are taking care of.

Meet in the lobby at at the beginning of **4th period at 10 AM** on Friday and form the following groups:

**LAUREN:**

Ade  
Justin  
Brenna  
Annika  
RJ  
Trey L  
Julia

**NANCY:**

Chris  
Natan  
Peter  
Alston  
Travon  
Amanda  
Roman

**PATTI:**

Harry  
Jay  
Nathan  
Kyron  
Sean  
Julian

**JIM:**

Myles  
Matt  
Veronica  
Bradley  
Magnus  
Kayla
