Hi Patti

1. When exactly do we have to apply for re certification?

Typically, you file intent to apply in early December. The current deadline listed is for 2017 certification and you file an intent to apply by Dec 16th 2016. I would stay tuned and see what the deadline is next year. I would expect to be around the same time. You will be able to find that information at this website: <http://maeoe.org/green-school-application/> when next year's dates are posted (after March 2017). The completed application will be due the following March.

1. Can you take a look at it?

Yes! I will look at it and email you some feedback. I would like to brush up on the new application expectations first, so I expect to be well versed in October/November.

Can you help me with that task? Yes Perhaps we can meet and discuss? Certainly, especially if you could come to Masonville Cove to meet. would that be possible?

If you can still make the MAEOE training, I would recommend it. I would be happy to help look through your application, but there is a lot to be gained from being around like-minded teachers for ideas and prior successes at the MAEOE training. I would highly recommend it and would not recommend substituting a meeting with me for that training.
