

Dear Trout Unlimited and Mr. Gamper,

Thanks for letting us come release the trout fingerlings. It was interesting to learn about and how to flycast. I enjoyed seeing the path going along Stony Run again. It was a worthwhile experience because I may come back to the path more often. Giving the trout name's and seeing the frog and the toad were fun as well.

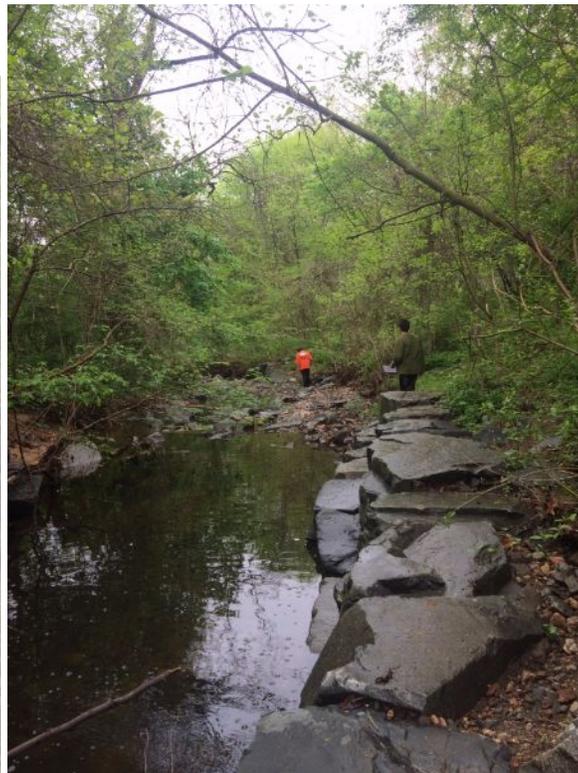

Alex K.

Dear Mr. Gamper and Trout Unlimited,

Thanks for taking us out during the field trip yesterday. I really enjoyed getting to be apart of your program. Getting to release the trout was lots of fun and it was my favorite part of the day. This was a great learning experience for our school. Hopefully we can work together to help the environment soon.

Thanks again, Caroline.C

Dear, Mr.Gamper and Trout Unlimited

Thank you for hosting this amazing trip. I loved letting the fish go into the streams. It was lots of fun learning how to fly cast. I also learned how to find out more information about the trout. I liked making names of the trouts it was fun. I called my trout "The Almighty Jimmy". I also liked seeing some of the toads hop around the creek.

Sincerely,

Frankie Fallon

Dear Mr. Gamper and Trout Unlimited

Thank you for letting our class release the trout and learn more about trout survival. The most memorable thing I enjoyed was releasing the trout and seeing them be free. I loved this experience because we got to release the trout and name them. I also loved the experience of learning how to fly fish and learn how to catch trout food and looking at small creatures.

Sincerely,

Justin Lunenfeld

Dear Mr Gamper and Trout Unlimited,

Thank you taking me to stony river creek. Also thank you for teaching me how to fly fish. I learned so much about trout thank you. It was a lot of fun releasing the trout and naming them. I want to explore more for more information because it's a lot of fun. What i really enjoyed was releasing the trout and naming them.

From Nick Majerik

Dear Mr. Gamper and Trout Unlimited,

I want to thank you for providing this trip for our class. It was very fun. The most memorable part for me was learning more about trout and the stream. I thought it was a worthwhile learning experience because it is good to know what different kinds of fish like and don't like, for future events. I really enjoyed the whole trip, and I will remember it forever. Thanks again for making it happen.

Yours Truly,

Lyla :-)
