

## Tree Health Check -- CHILD

Your group's mission is to identify the health of trees, clean up trash that may be causing harm to the trees, and add helpful signs that share information about the trees and tips on ways to keep the trees healthy.

Your group will be marking trees in the following area: **Hargrove between 25th St and 20th St**  
Mark the location of each tree with a number, and enter the information into the available location as Tree 1, Tree 2, and so on.

	Tree 1	Tree 2	Tree 3	Tree 4	Tree 5
How healthy is the tree (1-10)?					
What type of tree?					
Do the leaves look healthy (Healthy: Green leaves, new growth. Unhealthy: shrivelled or brown/black leaves)					
Does the bark look healthy? (Healthy: Looks it's usually color. Unhealthy: Bald patches, holes from bugs)					
Is the soil healthy? (Healthy: Mulch, small plants to hold the soil in. Unhealthy: Cigarette butts, trash, erosion)
