

Choose to Reuse

In a year, Americans throw away nearly 25 billion cups.

Pledge to use a refillable bottle!

We know there will be times when you forget your refillable bottle. On those days, try to forgo lids and straws, and always remember to recycle when possible.

Challenge A Friend

Congratulations! We will give you a free water bottle!

Another way to make an impact is to recruit a friend or family member to participate in challenges along with you!

By choosing to become a part of this campaign. You've taken a first, very important step! This movement is about more than just conservation; it's about connecting a community of change-makers.

I pledge to use a refillable bottle at school every day.
